

Softrend's most sustainable sofa

Kimi is one of the most sustainable sofas made in Estonia, designed according to **circular design principles**. Instead of a traditional box frame, Kimi's structure is built from mono-materials, making the entire sofa **fully recyclable**.

The sofa's **covers are completely removable**, making them easy to clean or replace whenever desired.

Design: Argo Tamm

PRODUCT INFORMATION

- **Seat cushion:** HR-polyurethane foam; plywood slats underneath
- **Back cushion:** HS-polyurethane foam
- **Leg frame:** solid ash wood; oak stain (matte lacquer finish)
- **Additional information:** cover are fully removable; 100% cotton lining
- **Sustainability:** designed according to circular design principles – every part of the sofa is easily replaceable
- **Accessories:**
 - **movable armrest/side table:** double-sided, one side functions as a table, the other as an armrest
 - **decorative cushion:** adds extra comfort to the backrest; filling: mix of feather, fiber, and shredded foam
- **Warranty:** we provide a 20-year warranty on the solid timber frames of our beds and sofas
