

Oaas – stiilne detail, mis lisab hubasust nii elu- kui magamistuppa

Lillepostament Oaas suudab olla mitu asja korraga: disainielement, mis toob tuppa mitmekesisust, praktiline tugi, kuhu asetada taimi ja iluasju ning stiilne öökapp, mis on üllatab oma unikaalsusega.

Oaas mõjub terviklikult ka üksiku moodulina, kuid soovi korral saad mitu Oaasi omavahel ühendada. Tõeliselt hubase tunde loob Oaasi kangaga kaetud välissein. Vali sama kangas, millest on valmistatud sinu Softrendi diivan või voodi – või leia meie laiaast kangavalikust mõni teine interjööri sobiv lahendus.
